

Nameplate position at **MUNSCH Pumps**

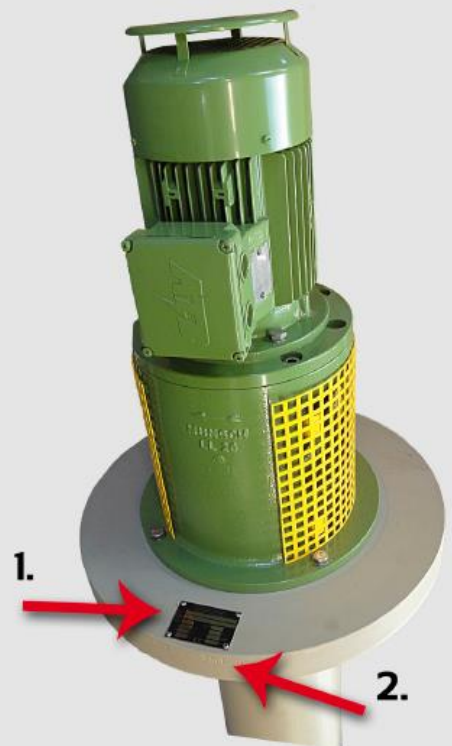

The MUNSCH serial no. is a unique identification of each MUNSCH pump. This identification is linked to all relevant technical data of a pump in our database. It is essential for a correct configuration of spare pumps and parts.

The serial no. starts with a “W” and ends with 5 digits (e.g. W46348).

Horizontal Pumps

Depending on the pump model the serial no. can be found on the nameplate (1.), on a separate white plate (2.) or engraved in the plastic (3.).

Vertical Pumps

The serial no. can be found on the nameplate (1.) or engraved in the sole plate (2.).
